The screenshot shows a mobile application interface. At the top, there is a status bar with the time '01:32', signal strength, and battery level. Below the status bar, there is a navigation bar with a back arrow on the left and the word '儲存' (Save) on the right. The main content area is divided into two sections. The first section is titled 'checking socket' and contains a list of notes. The notes are: '日期 2020-12-11', '提醒訊息 1日前', 'Derek', and 'checking window'. The second section is titled '記錄照片' (Record Photo) and contains a photo gallery. The gallery shows a photo of a desk with a computer monitor, a calculator, a keyboard, and a mouse. A red 'X' button is visible in the top right corner of the photo gallery.
